

Quick Introduction Script (Gatekeeper or First Contact)

“Hi, my name is [Your Name] with [Company Name]. We provide fast, compliant background screening services for local employers. I was calling/stopping by to see who handles hiring or employee onboarding.”

(If transferred or connected to the decision maker, continue below.)

Core Employer Pitch Script

“Hi [Name], I’ll be brief. We help businesses reduce hiring risk by providing fast, accurate background checks with local support — often faster and more responsive than large national companies.”

“Many employers come to us because they want reliable screening, clear turnaround times, and a real person they can reach when something is urgent.”

Needs-Based Question (Engages Them)

“Are you currently handling background checks in-house or working with a screening provider?”

(Listen carefully — this tells you how to position your offer.)

If They Already Have a Provider

“That makes sense — most companies do. Many of our clients kept their previous provider until they saw how much faster and more responsive a local partner can be. We’re often used as a backup or overflow option when quick turnaround is critical.”

If They Don’t Have a Provider or Sound Unsatisfied

“That’s exactly where we help. We offer simple setup, clear pricing, and screening packages tailored to your industry so you can hire confidently without delays.”

Value Highlights (Customize to Your Services)

"We can provide:

- Criminal background checks*
- Employment and identity verification*
- Tenant or contractor screening*
- Bundled services like fingerprinting or drug testing*
- Fast turnaround with compliance support*

Our goal is to make hiring safer and easier, not more complicated."

Soft Close (Low Pressure)

"Would it be helpful if I emailed you a quick overview of our services and pricing so you have it on hand?"

OR

"I'd be happy to stop by for five minutes or send a one-page capability sheet if you ever need a reliable backup option."

Strong Close (When They Show Interest)

"Great — what email should I send that to?"

OR

"When would be a good time to briefly discuss your hiring needs so we can tailor a screening package for you?"

Leave-Behind Line (In Person)

"Here's my card. Even if you don't need us today, we're here whenever quick or reliable screening becomes important."

Power Tips That Increase Conversions

Speak like a risk-reduction partner, not a salesperson

Emphasize speed, compliance, and local support

Always aim to secure the next step (email, meeting, or follow-up)

Mention being a backup provider — this lowers resistance

Keep the tone calm, confident, and respectful of their time
